DX-8500

Engineered for Style and Comfort

Genius introduces the DX-8500, a new wireless infrared mouse. The contoured shape gives your hand comfortable control. Shaped to encourage a more natural hand, wrist, and forearm posture, this device helps prevent possible pain from repetitive stress injuries.

DX-8500 provides quick and easy access to Windows 8 features. Quickly navigate to switch between apps and to open up the Charms panel; or you can simply toggle between Windows 8 Metro interface and the last app used. Additionally, the DX-8500 has three hot keys to access Previous/Next Page and to adjust the dpi between 800, 1200 and 1600.

One set of included AA batteries gives you up to 36 months* of dependable power without battery changes. Say goodbye to the hassle, expense, and waste of frequent battery changes. It's so energy efficient, you won't even have to think about replacing the batteries for years. And since you'll be using and disposing fewer batteries, you'll be doing a good thing for the planet too.

The DX-8500 is the ergonomic mouse that lets you scroll or surf on virtually any turf!
